APTITUDES

Problem-solving skills
Excellent communication and interpersonal skills
Fast learning
Teamwork and camaraderie
Motivation and commitment
Creativity

EDUCATION

Bachelor's Degree in Software Engineering
Universidad Politécnica de Madrid
2020-present day
Obtained level B2 in English from the Official Language School.

Bachillerato tecnológico
GSD Vallecás

2018-2020
Completed the Dual Diploma Programme at Academica International Studies, obtaining the American C1 level.

LANGUAGES

Spanish 
English 
French 

PROFILE

I am a passionate Software Engineer with a strong commitment to technical excellence and innovation. I am a great team player who is always ready to find solutions to any problems that may arise. My experience is still limited, as I am currently finishing my degree at the Polytechnic University of Madrid. In addition to my dedication to engineering, I have a love for cinema and travel, which inspire me to explore new perspectives both in my work and in my personal life.

WORK EXPERIENCE

Intern at CDS

CDS, a Hewlett Packard Enterprise company 25/01/2026 - Until now

During this work placement, I was involved in the development of a business data analytics application on a PostgreSQL data lake, with pipeline automation using Apache Airflow, working as part of a team and in direct contact with the client, amongst many other tasks:

- Development and architecture:** Design and implementation of an interactive web interface using Python Shiny, applying SOLID principles and the separation of concerns into independent modules following an ETL process.
- Data and automation:** Integration with PostgreSQL via SQLAlchemy and with the Apache Airflow API to trigger and monitor DAGs for importing Excel files.
- Data quality:** Development of a file pre-validation system with error detection and visual reporting to the user.
- Requirements management:** Involvement in gathering and analysing functional requirements with the client, translating their needs into technical specifications and iterating on the solution based on their feedback.

Skills acquired:

- Web development with Python (Shiny) and data visualisation.**
- Design of clean architectures and SOLID principles.**
- Relational databases using PostgreSQL and SQLAlchemy.**
- Process automation using Apache Airflow.**
- Client communication, requirements management and teamwork.**

Intern at Aurora Project (H2020)

ETSI de Sistemas Informáticos

14/03/2024 - 14/06/2024
14/10/2024 - 30/06/2025

For almost nine months, participating in the Aurora Project collaboration scholarship at the UPM, I developed skills in effective communication with the public and promotion and marketing of its application and a photovoltaic panel installation project, among others:

- Application Promotion:** I actively participated in promoting the Aurora Project H2020 app.
- Public Interaction:** I gave demonstrations, answered questions, and collected feedback.
- Collaborative Scholarship:** I gained practical experience in technology promotion and customer service.
- Marketing and Communication:** I collaborated on promotional material and marketing strategies.
- Events and Presentations:** I attended and represented the project at events, promoting interest in the app.
- Data Collection:** I collected and analysed data to improve the app.

Skills acquired:

- Effective communication with the public.**
- Promotion and marketing of technological applications.**
- Teamwork and collaboration in a professional environment.**
- Data analysis and collection.**
- Event organisation and management.**

TECHNICAL KNOWLEDGE

Programming languages:

- Java, advanced.
- C, basic/intermediate.
- Python, advanced.
- Pascal, basic.
- Scala, basic.

Markup languages:

- HTML, intermediate.
- CSS, intermediate.

Database languages:

- SQL

Development environments:

- IntelliJ IDEA.
- WebStorm
- PyCharm
- Visual Studio.
- Eclipse.

Version control:

- GitHub.

Other tools:

- Apache Airflow.
- SQLAlchemy.
- Python Shiny.
- Photoshop.
- Canva.
- Figma.
- Notion.
- WordPress.

MORE INFORMATION

I have a driving licence and my own car.

WORK EXPERIENCE

Position on the Board of Directors of the Nostromo university association

ETSI de Sistemas Informáticos

2021 - present day

For three years, I served on the board of directors of Nostromo, a position that allowed me to develop organisational and leadership skills. In my role, I excelled in:

- **Administrative Management:** I oversaw documentation and internal communication, ensuring an effective flow of information.
- **Event Organisation:** I coordinated events and activities, demonstrating logistical skills and teamwork.
- **Strategic Leadership:** I developed strategies for the growth and continuous improvement of the association.
- **Effective Collaboration:** I fostered a collaborative environment, promoting active member participation.
- **Decision-Making:** I implemented initiatives and projects that have contributed to the association's success.

My experience at the Nostromo Association not only highlights my dedication to the cause, but also my ability to lead and work as part of a team to achieve common goals. As President, I am committed to continuing to guide the association towards achieving its goals and strengthening its impact on the community.

Leisure and recreation instructor

GSD Vallecas y GSD Buitrago

2020

During my internship in July at GSD Vallecas and GSD Buitrago as a Leisure and Free Time Monitor, I had the opportunity to work with children of various ages, cultivating valuable skills such as:

- **Multi-age Group Management:** Coordinating and actively participating in activities adapted to the different ages of the children, promoting an inclusive and stimulating environment.
- **Effective Communication:** I developed clear and positive communication with the children, encouraging active participation and collaborative conflict resolution.
- **Creativity in Planning:** Contributing to the planning and execution of recreational and educational activities, stimulating creativity and practical learning alongside my colleagues and camp monitors.
- **Safety and Well-being:** I prioritised the safety and well-being of the children, implementing appropriate protocols and ensuring that they enjoyed fun and safe experiences.

These practices in the field of leisure and recreation not only consolidated my ability to work with children of different ages, but also strengthened my proactive and creative approach to creating positive and enriching environments.

Private tutor

2020-2021

For one year, I tutored students from primary school to secondary school, where I developed certain skills, detailed below:

- **Pedagogical Adaptability:** I personalised my teaching to meet the individual needs of each student, achieving significant progress.
- **Effective Communication:** I fostered a collaborative learning environment, conveying complex concepts in a clear and accessible manner.
- **Motivation and Empathy:** I created a safe environment that inspired intrinsic motivation, strengthening confidence and a love of learning.
- **Continuous Assessment:** I implemented ongoing assessment to measure progress, identifying areas for improvement and adjusting accordingly.

My experience demonstrates my commitment to education and my ability to inspire learning in any educational setting.

SARA CASTELLANOS GARCÍA

SOFTWARE DEVELOPER

TO WHOM IT MAY CONCERN,

My name is Sara Castellanos, and I am pleased to share a little about myself and my background. Born and raised in the vibrant city of Madrid, I have had the opportunity to immerse myself in its diverse culture and exciting atmosphere. From an early age, I was drawn to technology and its ability to drive meaningful change in the world around us.

My academic path first took me to GSD Vallecas, where I was able to establish a solid foundation for my future studies. There, I learned to appreciate the importance of hard work, collaboration, and perseverance in achieving goals. In addition, this experience gave me the opportunity to interact with diverse people and enrich my perspective.

Later, I decided to pursue my passion for technology by enrolling at the Polytechnic University of Madrid (UPM), where I specialised in Software Engineering. During my time at UPM, I have had the privilege of acquiring in-depth knowledge in areas such as application development, system design, and agile methodologies. Participating in challenging projects and working alongside my peers has improved my ability to solve problems creatively and efficiently.

My focus on software engineering is not limited to the classroom. I have had the opportunity to collaborate on personal and challenging projects, providing technological solutions to real-world problems. My goal is not only to create functional applications, but also to design digital experiences that have a positive impact on people's lives.

In addition to my passion for technology, I have other interests that keep me balanced and creative. I love exploring the corners of London, discovering new cafés and cultural spaces; although this goes beyond London, as I am passionate about travel. I also have a deep interest in cinema, as I see it as a powerful way to tell stories and express ideas.

In short, my journey so far has been an exciting combination of education, exploration and personal growth. I am excited to continue learning and contributing to the world of technology as I advance in my career. I look forward to meeting many of you and learning from your own experiences!

SINCERELY,

SARA CASTELLANOS GARCÍA
